[相手の最近の具体行動] + [あなたの募集との接点] + [低圧な問い]

例) "Noticed your recent post on Rust async performance — we're hiring a backend team working on similar concurrency bottlenecks; open to a quick 10-min chat this week?"

コピペ可：1行スクリプト10本

1. Backend (Go/Rust)

"Saw your commit notes on Go service latency — we're rebuilding a high-throughput API path and your approach looked very aligned; open to a brief intro call?"

2. Frontend (React/TypeScript)

"Noticed your design-system thread on accessible components — we're scaling a TS/React product with similar constraints; would a short conversation be useful?"

3. Data Engineer

"Read your post on dbt model governance — we're solving nearly the same reliability issue in our analytics stack; open to a quick exchange this week?"

4. ML Engineer

"Your comment on retrieval quality vs latency was spot on — we're hiring for a team balancing that exact tradeoff; interested in a light intro?"

5. Mobile (iOS/Android)

"Saw your release note on startup-time optimization — we're focused on similar mobile performance wins; open to a short chat if timing is good?"

6. DevOps/SRE

"Noticed your incident review write-up on alert fatigue — we're hiring SREs to improve on-call signal quality; open to a quick conversation?"

7. Security Engineer

"Read your take on secrets management rollout — we're hiring for appsec + platform guardrails with similar priorities; would a short intro be welcome?"

8. Full-Stack Engineer

"Saw your project shipping Next.js + edge functions — we're building in a near-identical stack and thought there might be a fit; open to connect?"

9. Platform Engineer

"Your post on internal developer platform standards stood out — we're hiring for platform DX in a comparable environment; open to a brief call?"

10. Engineering Manager candidate

"Noticed how you scaled delivery cadence across teams — we're looking for an EM to do exactly that in a growing org; open to a short intro?"

NG

"Hi, we have an exciting opportunity at a fast-growing company. Interested?"

改善

"Saw your post on Kafka consumer lag tuning — we're hiring for a backend role tackling the same problem in production; open to a quick intro this week?"

改善ポイント

- "exciting opportunity" のような抽象語を削る

- 相手の具体行動を冒頭に置く
 - 圧の弱いCTA（open to / would it be useful）を使う
-
